

ECLERIS 

FLEXIBLE

NASOPHARYNGOSCOPE

NP-FLEX

NASOPHARYNGOSCOPE

State of the art production methods and technologies come together to achieve a high quality product, optimizing thinness, visibility and bending.

The innovative features and the outstanding optical quality of this new generation of flexible nasopharyngoscopes have been developed in close cooperation with clinical users.

ADULT
3.2MM
&
PEDIATRIC
2.8MM

NASOPHARYNGOSCOPE

HIGH RESOLUTION

The new generation of fibre-optic technology provides brilliant detail definition at the edges of the image as well as at the center, facilitating recognition of even the smallest structures.

DEPTH OF FOCUS

A particular high depth of focus guarantees a clear, sharp image on a larger range.

ADAPTERS FOR ALL light guides included.

SERIES

NP-FLEX

	2,8 MM	3,2 MM
FIELD OF VIEW	85°	85°
DEPTH OF FIELD	3-50 FOCUSABLE	3-50 FOCUSABLE
OUTER DIAMETER INSERTION TUBE	2,8 MM	3,2 MM
OUTER DIAMETER DISTAL END	2,8 MM	3,2 MM
WORKING LENGTH	300 MM	300 MM
BENDING RANGE OF DISTAL TIP	160° (UP/DOWN)	160° (UP/DOWN)

FLAWLESS HYGIENE

These flexible nasopharyngoscopes are designed for optimum hygiene.

HIGH IMAGE BRIGHTNESS

The unique brightness typical of rigid endoscopes has been achieved in this new series of scopes.
